

'Play Any Way'

*Muzium & Galeri Tuanku Fauziah (MGTF), Universiti Sains Malaysia
18–30 Mei 2011*

'Play Any Way' is a unique audience-centered and interactive exhibition that places emphasis on the positive attributes of traditional toys and games. The exhibition showcases toy projects done by Syed Mohd Bakar, USM Resident Artist based at Sanggar Sains USM. He introduces the concept of 'trash-formation' in which re-cycled and throwaway objects are used to create toys and games.
